

Spotlight Mini Data Sheet

Main Features

- **Compact projector lens modifier** with Mini ProLock Mount for STORM 80c
 - **19° and 36°** lenses available
 - **Rotating barrel** allows for **precise rotational projection adjustments** without the need to remove gobo inserts
 - **Custom precision optics** with minimal chromatic aberration and color shift
 - **Efficient light-blending optical design**
 - **Telecentric element groups** for **even edge-to-edge light distribution** and **minimal distortion** of projection beam
 - **Spotlight Mini Iris** separately available for fine tune control of **projection beam size**
 - **Included gobo clip** compatible with M-Size Gobos along with glass gobos
 - **10x M-Size gobos included** for projecting fine patterns
 - Standard gel clip included
 - **Built-in 4-leaf cutter** for precise and subtle light shaping
 - Durable **all-metal** build
 - Included soft carrying case
- The Aputure Spotlight Mini is an essential tool for STORM 80c users across many professions.

Cinematographers and lighting technicians seeking precise control over beam shape and projection in compact lighting setups will appreciate its efficient optics and interchangeable lenses. This allows users to achieve refined, textural lighting with minimal distortion, making it ideal for narrative and commercial work alike.

Video professionals will appreciate the Spotlight Mini's portability and seamless integration with the STORM 80c, offering a lightweight yet powerful projection solution for interviews, product shoots, and on-location content creation where space is limited but control is critical.

Photographers looking to sculpt light for portraits, still life, or creative sets will benefit from the Spotlight Mini's even edge-to-edge illumination, built-in cutters, and gobo capabilities, enabling them to craft striking visuals without bulky modifiers.

The Spotlight Mini expands the creative possibilities of the STORM 80c, making it a go-to projection tool for any professional lighting workflow.

Product Description

The Spotlight Mini is a compact projection lens modifier designed specifically for use with the STORM 80c via its dedicated Mini ProLock Mount. Engineered for precision and portability, the Spotlight Mini transforms the STORM 80c into an extremely precise shaping tool, ideal for creating controlled, textured beams of light in tight shooting environments.

Utilizing meticulously engineered custom optical elements, the Spotlight Mini ensures an even edge-to-edge beam with minimal chromatic aberration and color shift, while efficiently blending the STORM 80c's BLAIR-CG output into a uniform projection. The rotating barrel allows users to adjust the orientation of gobos without removing them, providing flexibility when projecting patterns and textures.

Available with 19° and 36° interchangeable lenses, the Spotlight Mini gives users the ability to fine-tune the size and focus of their projector modifier. The included gobo clip accepts M-size metal and glass gobos, with 10 M-size gobos included in the kit for added creative flexibility. An optional Spotlight Mini Iris is also available to further refine beam size without repositioning or swapping lenses.

With its integrated 4-leaf cutter, standard gel frame, and durable all-metal construction, the Spotlight Mini offers a complete projection solution in a compact footprint. Its included soft carrying case ensures portability and protection, making it an essential tool for professionals who need precision lighting control in any environment.

Spotlight Mini 19° Lens

Product Description

The Spotlight Mini 19° Lens is a tight 19° precision projection lens designed for use with the Aputure Spotlight Mini.

Sales & Shipping Information

Product Name	Spotlight Mini 19° Lens
SKU	AA0706012G
EAN	6977162453613
Packing Dimensions	16.0 x 16.0 x 20.5cm / 6.3 x 6.3 x 8.1in
Net Weight	1.09kg / 2.30lbs
Gross Weight	1.30kg / 2.86lbs
Carton Quantity	12 pcs
Carton Dimensions	64.5 x 36.0 x 37.3cm / 25.3 x 14.1 x 14.7in
Carton Weight	14.60kg / 32.30lbs
